

CV 70 XTRA HOME-CINEMA PROJECTOR

The CineVERSUM 70 XTRA shares the stylish European design of the CineVERSUM 60 and the CineVERSUM 70 but it comes equipped with Texas Instruments' latest High Definition DLP™ chip, the DarkChip 3™.

By means of its superior optical components, the CineVERSUM 70 XTRA is ideally suited for screen sizes ranging from 60" to 110" diagonal (130 cm to 244 cm wide), while a long or short throw zoom lens enables convenient installation in most environment.

With its full array of analog and digital inputs, including a new HDMI input, accommodating a wide variety of sources including DVD, satellite and TV receivers, as well as High Definition sources (1080p), the CineVERSUM 70 XTRA offers a breath-taking cinema experience in the comfort of your home.

Developped in close cooperation with Barco Digital Cinema, which provides DLP Cinema™ equipment to Hollywood's leading film studios and theaters worldwide, the CineVERSUM 70 XTRA comes equipped with the industry's best-of-breed video processing power.

Technology	Single chip DLP™
DLP™ resolution	1280x720 HD-Ready
Lenses	1.80 - 2.40 : 1 (long throw) 1.40 - 1.80 : 1 (short throw)
Chip format	16:9 true widescreen
Chip type	Dark Chip 3™
Lamp	250 W UHP
Lamp arc length	1,3 mm
Lamp lifetime	> 1500 hours (on average)
Light output	Typical 1200 ANSI lumens
Contrast ratio	> 4000:1
Brightness uniformity	> 90%
Lens zoom and focus	Manual
Lens shift	Manual
Vertical shift	50% to 120% off axis
Horizontal shift	No (on axis)

Colour wheel	6 segments (RGBRGB)
Colour refresh	6x
Inputs	1 composite video (RCA) 1 s-video (4 pin mini DIN) 1 component video (3 x RCA) 1 RGBHV or component (5x RCA) 1 RGBH (D15 VGA) 1 HDMI
Control	RS232 Control
12V trigger	2 (power/masking)
Accoustic noise	Typical 20 dBA May vary upto 30 dBA depending on external temperature
Main voltage range	90-230V AC / 50-60 Hz
Width	449 mm / 17.7"
Height	156 mm / 6.2"
Depth	420 mm / 16.6"
Weight	7.9 kg (17.4 lbs)

Optional ceiling mount kit : R9852060
